

**KEEP OUT OF REACH OF CHILDREN
READ SAFETY DIRECTIONS BEFORE OPENING OR USING**

**ACTIVE CONSTITUENT: 930g/kg Sulphur (S)
present as powdered sulphur**

GROUP M2 FUNGICIDE

**For the control of powdery mildew of pumpkins, marrows,
grapes and paw paws and of Citrus Rust Mite in Citrus
as per the Directions for Use Table.**

DIRECTIONS FOR USE:

RESTRAINTS: DO NOT apply to wet foliage.

CROP	PEST	STATE	CRITICAL COMMENTS
Citrus	Citrus Rust Mite	Qld, NSW, Vic, SA & WA only	Apply from budburst onwards every 7 - 14 days.
Grapes	Powdery Mildew	Qld, NSW, Vic, Tas, SA & WA only	Apply from budburst onwards every 7 - 14 days.
Paw Paws		Qld only	Apply from budburst onwards every 7 - 14 days.
Pumpkins, Marrows		Qld, NSW, Vic, Tas, SA & WA only	Apply from seedling stage onwards every 7 - 14 days.

NOT TO BE USED FOR ANY PURPOSE, OR IN ANY MANNER, CONTRARY TO THIS LABEL UNLESS AUTHORISED UNDER APPROPRIATE LEGISLATION.

WITHHOLDING PERIODS:

NOT REQUIRED WHEN USED AS DIRECTED.

GENERAL INSTRUCTIONS:

Apply the dust lightly and evenly to cover the foliage stems of the plant thoroughly. Rain will remove the dust deposit easily so that a fresh application is required after rain has fallen, as soon as the plants are dry.

Crop Safety:

At temperatures over 24°C there is the possibility of leaf scorching if sensitive plants are treated, therefore reduced dosages are recommended during the hot dry months. Avoid dusting plants under windy conditions or when temperatures exceed 30°C

Caution:

Dust when the air is still. Avoid excessive clouds of the dust as sulphur is very irritating to the eyes.

FUNGICIDE RESISTANCE WARNING

GROUP M2 FUNGICIDE

Grochem Dusting Sulphur Fungicide/Miticide is a member of the multi-site activity group of fungicides.

For fungicide resistance management the Grochem Dusting Sulphur is a Group M2 fungicide. Some naturally occurring individual fungi resistant to Grochem Dusting Sulphur and other Group M2 fungicides may exist through normal genetic variability in any fungal population. The resistant individuals can eventually dominate the fungi population if these fungicides are used repeatedly. These resistant fungi will not be controlled by Grochem Dusting Sulphur or other Group M2 fungicides, thus resulting in a reduction in efficacy and possible yield loss.

Since the occurrence of resistant fungi is difficult to detect prior to use, Grochem Australia Pty Ltd accepts no liability for any losses that may result from the failure of Grochem Dusting Sulphur to control resistant fungi.

PROTECTION OF LIVESTOCK:

Low hazard to bees. May be applied to plants at any time.

PROTECTION OF WILDLIFE, FISH, CRUSTACEANS AND ENVIRONMENT:

DO NOT contaminate streams, rivers or waterways with the chemical or used containers.

STORAGE AND DISPOSAL:

KEEP OUT OF REACH OF CHILDREN

Store in the closed original container in a dry, cool, well-ventilated area, out of direct sunlight.

Shake and empty contents into spray tank. Do not dispose of undiluted chemicals on site. Break, crush, or puncture and deliver empty packaging to an approved waste management facility. If an approved waste management facility is not available, bury the empty packaging 500 mm below the surface in a disposal pit specifically marked and set up for this purpose, clear of waterways, desirable vegetation and tree roots, in compliance with relevant local, state or territory government regulations. Do not burn empty containers or product.

FIRST AID:

If poisoning occurs, contact a doctor or Poisons Information Centre. Telephone: Australia 13 11 26; New Zealand 0800 764 766.

SAFETY DATA SHEET

Additional information is listed in the Safety Data Sheet which is available from Grochem Australia Pty Ltd. For a copy phone 1800 777 068 or visit the website www.grochem.com
